5.0 SYSTEM APPROVAL

The observations documented in each section of the report were reviewed against the acceptance criteria as written in the protocol. In some processes, discrepancies have been identified during the execution of the OQ. Details of discrepancy and their corrective action have been documented in section 10.0 (Deviation/ Discrepancy Sheet) of the protocol.

Hence, the Barcode Application System (WH-MTS-01) can be approved for execution of Performance Qualification (PQ) only after successful implementation and verification of the corrective actions identified against the discrepancies identified.
